4. FIRST AID MEASURES

Eye contact

Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. Eyes: Immediately

flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention and monitor the eye daily as advised by your physician.

Skin contact

Wash with soap and water. Get medical attention if irritation develops or persists.

Inhalation

Induced vomiting may lead to aspiration of the material into the lungs potentially causing chemical pneumonitis.

Ingestion

No additional first aid information available.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

Alcohol resistant foam, carbon dioxide, dry chemical, or water spray.

Unsuitable extinguishing media

Do not direct a water stream directly into the hot burning liquid.

Special protective equipment and precautions for fire-fighters

Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Use methods for the surrounding fire.
